### *FIAS Sustainability Policy*

---

The FIAS Sustainability Policy supports the aims and principles regarding sustainable responsibility in the activities assumed by FIAS. This includes its events, equipment used, supply chains, partnerships and office operations. FIAS, as a strong adherent/supporter of IOC principles, follow the Olympic Agenda 2020 and the IOC Sustainability Strategy strives to implement its work in following the IOC five (5) focus areas:

Infrastructure and natural sites; Sourcing and management; resource Mobility; Workforce; Climate.

#### **FIAS also take responsibility in the following spheres:**

as a leader of SAMBO community and movement - to engage and assist stakeholders; as an owner of the world SAMBO championships - proactive and leadership role on sustainability; as an organization - to embrace the sustainability principle and to include in our day-to-day operations.

#### **The Policy aims**

- To promote environmental, social and economic sustainable practices
- To integrate the environment pillar with social and economic to ensure the current and future needs of the sports events and FIAS are met
- To provide education to all members, especially to athletes, coaches and staff
- To collaborating with our partners and stakeholders across the SAMBO community to implement sustainable solutions
- To ensure a safe, clean, secure and healthy event & office environment for athletes and employees
- To promote diversity and accessibility, gender equity, woman rights and solving other social issues
- To reduce negative environmental impact and promote resource efficiency
- To integrate sustainability targets with economic objectives

**INTERNATIONAL  
SAMBO FEDERATION**

### **The Policy Principles**

- Application of environmental, social and economic practices at each SAMBO event and in the office
- Consideration of all impacts within each event and advance its development from each event
- Prevention of pollution by responsible management, resource and energy efficiency, reduction of emissions & waste, in consideration of the availability of facilities in the host city
- Promotion of the idea of being environmentally responsible among the FIAS stakeholders
- Monitoring environmental performance, setting measurable objectives by utilizing guidelines and targets for achieving sustainable improvement at the FIAS events and everywhere FIAS presented

### **Actions at FIAS Events**

FIAS has been and will follow these actions at SAMBO events in the host city, based on the success of the events held in previous years and within the framework of the new sustainable development strategy.

- Waste Management Protocol
- Energy Consumption and Energy Efficiency
- Save Water Campaign
- Emission Control and Transport Management
- Awareness and education for sustainable development
- Promotion greater environmental responsibility
- Advocacy for climate action through communication

FIAS strive to embed sustainability principles and practices within our corporate events and day-to-day processes, strives to achieve the principle of a circular economy, to contribute improving social issues as well as reduce the environmental impact of the federation and FIAS events by working towards a carbon reduction commitment.

This policy should help in the positive contributions to society through common goals for development different sides of sport, endless education and development, sharing awareness. Our aims in the coming years are to further spread the word of protecting our environment along with the economic and social impacts and be compliant recommendations to be a sustainable sport with the Olympic Agenda 2020, IOC Sustainability strategy and FIAS Sustainability plan for 2021-2030.
